

Vibram VERTIGE

end-use: mountaineering, ice climbing
compound: Vibram MONT

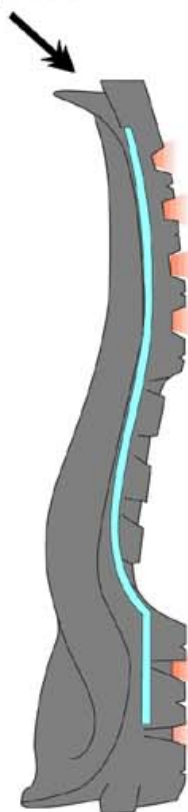

Pyramid lugs increase
GRIP ON ICE & SNOW

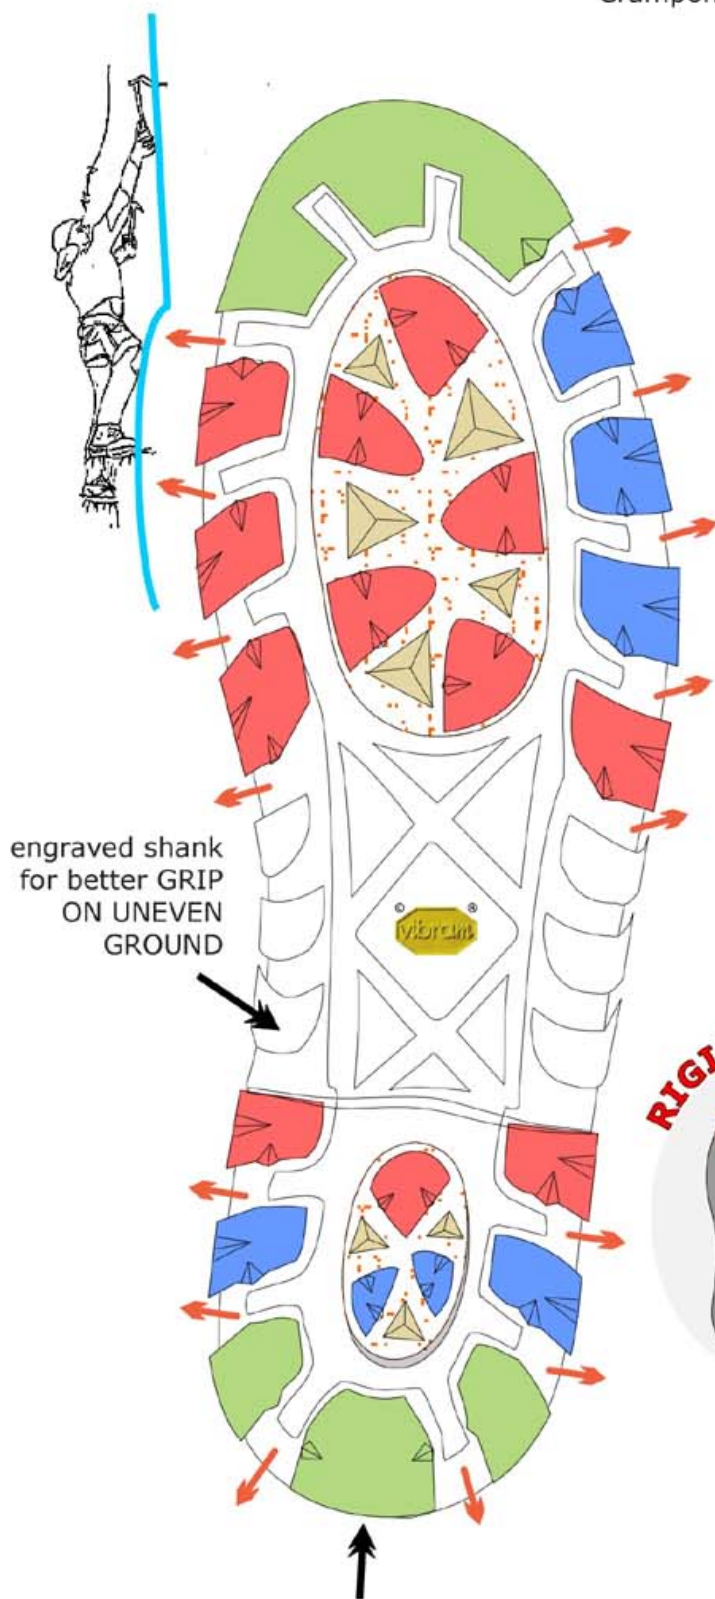

Convex area reduces
ICE & SNOW BUILD-UP

Crampon-compatible

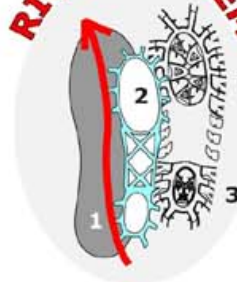

Crampon-compatible

engraved shank
for better GRIP
ON UNEVEN
GROUND

Crampon-compatible

RIGID SYSTEM

1) asymmetric shape for best FITTING

2) BI-AXIAL RIGID INSERT

compatible with new interlock™ system
matched with rubber during vulcanization process
externally visible to increase SELF-CLEANING
PROTECTS from damaging lateral torsion
provides CONTROLLED LATERAL STIFFNESS
when using crampons

3) powerful braking and thrust lugs
for maximum PERFORMANCE and SAFETY
